(*Designation*) President, District Board,

To The Secretary to the Government of Madras,
Local Self Government **Department.**
M a d r a s

Sir, thro'
The Director of Public Instruction,
M a d r a s.

I/w 3. 4 m-fs

I have the honour to enclose herewith copy of a letter from the Head Master Board Secondary school Harapanahalli in which he has made out a rather strong case for the permanent retention of an additional assistant in the Board High School at Harapanahalli with the endorsement of the District Educational Officer thereon, and to request that sanction may be kindly accorded in the circumstances noted hereunder to raise the existing recurring grant of Rs.3190/- by Rs.1200 being the extra cost on account of the additional teacher as per proposition statement enclosed.

I/w 6 m-fs

I. 7 m-fs

2. The general resources of the District Board are too slender to undertake any extra expenditure over the existing institution, and I have separately addressed a request to Government to bear the net cost of this institution so that the Board may be relieved of a portion of its financial strain.

3. Provision has been made in the revised estimate for 22-23 for this additional teacher who was entertained in July 1921 only as a temporary measure. The existing incumbent's services will terminate by the end of this short term. The question of continuing the services of an additional teacher will depend on the assurance of an additional grant applied for, unless in the meanwhile Government are pleased to comply with the Board's request referred to in para 2 supra. If the request is not complied with and the additional teacher's services are dispensed with, the strength of the school will suffer and also its good work that is now being turned out.

I have the honour to be,

Sir,

Your most obedient servant,

K Ramadas

For President. 23/3/23

P.S.R.22-3-23.

Copy of letter No. 9 dated 22nd January 1923 from the Head Master, Board Secondary School, Harapanahalli to the Inspector of Schools, Bellary and Kurnool.

With reference to your R.C. 595B dated 14th January 23, I beg to submit herewith a short summary of how the necessity arose for the entertainment of an additional assistant in the school from 1st July 1921.

For a long time after the introduction of the S.S.L.C. scheme in the school, Mathematics and Chemistry happened to be taught in the school as one of the Groups of Optionals for the VI Form. But students taking up the Mathematics Group in the Colleges in the Intermediate course felt great hardship when they had to take up Physics along with Mathematics and Chemistry. Hence this was proposed to be obviated by introducing "Physics as one of the subjects of Instruction along with Chemistry in the school. By this course an additional group of optional subjects likely to help students taking up the Medical Course, was sought to be provided. When I had discussed about this proposal with M.R.Ry., A. Rama Rao Garu, B.A., Inspector of Schools, he was convinced of the advantage of such a course and made mention of this in successive Inspection Reports.

Hence the proposal was submitted to the Director of Public Instruction, Madras for special grant for the purchase of Physical Apparatus and a sum of Rs.5000/- and odd was sanctioned towards the purchase of same. Physical apparatus of nearly Rs.5000 was purchased from England, and Experimental Tables to the extent of nearly Rs.1000/- were all got ready.

An application was submitted for sanctioning an additional Science Assistant to the school, to teach the New Group introduced to the Director of Public Instruction, but he was pleased to order that the additional Science Assistant was unnecessary as the Head Master and 1st Assistant are both Science Graduates.

By the Head Master and the 1st Assistant taking up Science

subjects, English work of the V and VI Forms greatly suffered, add then a great necesity was felt for the additional Assistant who can look after the English Work of the V and the VI Forms. This was explained to the President District Board and he was pleased to sanction the appointment of an additional assistant as a temporary measure for two years consecutively(1921-22., 1922-23).

From the Table of work of the Graduate assistants submitted herewith it can be seen that all the teachers are working the maximum number of periods they could work, leaving only a small interval to look into the exercises of Pupils.

It is therefore, quite impossible to get on with the regular work of the school, especially for the Examination-going classes, unless an additional Graduate Asst. is appointed permanently in the school, in consideration of the immense advantage accruing for the pupils by the opening of the "Physics Chemistry Group" of which there are decent number in the V & VI Forms, and the large amount to the extent of 6 to 7 Thousand Rupees that has been spent on the subject by way of Apparatus and Furniture.

K Ramachandra
